

## CLB/NCLC and Employment

Welcome to the first newsletter of the new fiscal year! This quarter, we are excited to share with you our initiatives that bring together the CLB/NCLC and employment.

On June 23, CCLB will be hosting another Speaker Series session called, "Francophone immigration in Canada: Why, Who and How?". This session will be offered in French, with Francophone panelists invited from different fields related to Francophonie and Francophone immigration in Canada. The topic of discussion

explores the reasons behind the recent increase in Francophone immigration efforts, the definition of "Francophone", and how Francophone immigrants can best feel connected to their new communities and contribute to their full potential in Francophone communities in minority situations outside of Québec. Employment is key to a sound integration, but many recent high-skilled francophone immigrants experience challenges in employment and we want to explore if and how language might be a contributing factor. Come join us to listen to the discussion and share your ideas for our Francophonie!

Thanks to the generous sponsorship from our partners Université Sainte Anne in Halifax (Nova Scotia) and La Cité in Ottawa (Ontario), we are thrilled to offer this session free of charge, so don't delay in getting your tickets for the June 23 event.

**TICKETS ARE AVAILABLE HERE.**

This is our second session, and we are excited to continue this endeavour in the future! Let us know if you have any suggestions for future topics [by completing this survey](#).

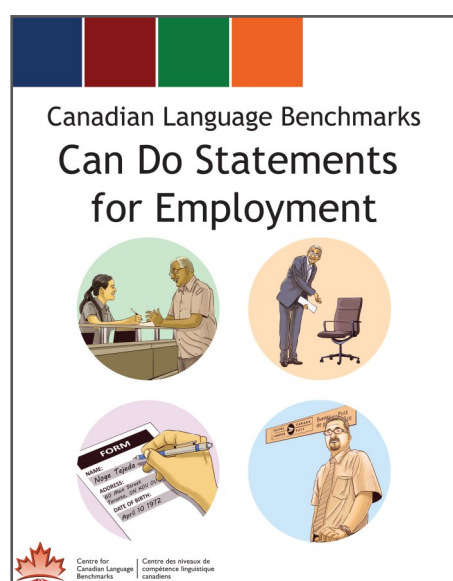

## Language for Success Digital Tool Kit

Another exciting resource CCLB/CNCLC is working on to support language and the topic of employment is our Language for Success digital tool kit. This tool kit, funded by the Government of Canada's Adult Learning, Literacy and Essential Skills Program, will support the integration of Skills for Success in second or other language training. The tool kit components are based on a newly developed Language for Success Framework that uses the CLB/NCLC to showcase the language needs within the Skills for Success. The final tool kit will be filled with learning activities, resources, and self-assessments to help support workplace language skills development. It will be available in English and French and will have ASL/LSQ components.

We are positive that the digital tool kit and the Framework will be very useful and will provide the language support needed for workplace skills development. CCLB/CNCLC will be creating webinars and how-to videos on using the Framework and the tool kit later this fiscal year. Follow us on LinkedIn for updates!
